### Delivery recommendations

Name	Songnumber_Title
Resolution	32 bit floating Point
Sample Rate	Sample rate at witch the project was mixed
Dithering	Use no dithering
Headroom	The highest peak should not exceed -1dBFS
Master Bus	No Plugins or Limiting/ Clipping on the Master Bus
Fades	Please tell me where fades should be. Please take them out of the tracks
DDP	Please send me the ISRC and EAN/UPC Codes

Most Importend: Please listen to the tracks before sending them and make shure that all importend sound plugins and automations are activated

If you have any questions, please write to me at  
[Luke@Lukekrayworker.com](mailto:Luke@Lukekrayworker.com)

I look forward to hearing from you
